

Startup Challenge @NLSDays 2018

Here it is! Your chance to make a lasting first impression and establish yourself and your company with the Nordic region's foremost investors.

- **What?** Startup Challenge at Nordic Life Science Days at Waterfront in Stockholm, evening of the 10th of September.
- **How?** Startup Challenge is an enjoyable pitching event showcasing the best and brightest startups currently emerging from the Nordic Life Science ecosystem. Based on your video contributions, the best 12 will be selected to pitch live in front of life science industry investors. It means that you will be pitching in front of a qualified audience. The winner receives a free admission with company presentation to the Nordic Life Science Days 2019.
- **Why?** Benefit from the ideal environment for your company to engage with the leaders in life science, NLSDays being an excellent opportunity to interact with people who have a successful track record and a great place to meet potential investors and partners. On the top of that, it will be fun! You will also get exposure through the website and the program for the conference.
- **What to do?** Put the date in your calendar: September 10th 2018. Get started on preparing your 1-minute video pitch.

Startup Challenge applications will open on the 16th of April. More details on selection criteria and the live pitch event in Stockholm will be published on the [NLSDays](#) website first week in April.

Best wishes from Umeå Biotech Incubator – growing ideas that can change the world
